LABORA

• SINCE 1989 •

LABORA boasts a world class (state of the art), proudly South African production facility based in Durban - South Africa. The **LABORA GROUP** employs over 400 dedicated employees.

The company is committed to the concept - "*happy staff are productive staff*" and such, considers itself an added value employer.

With a proud history in servicing the South African industry, the company specialises in the design and production of a wide range of synthetic and leather ladies footwear, in styles that are continuously being updated to remain abreast with local and international fashion trends.

Our production capacity is 12000 pairs of shoes per day.
Minimum order quantity **Flourish**: 1000 pairs
Minimum order quantity **Ichume**: 50 pairs

All styles are available in a variety of different colours and materials.

The in-house design and development ability, combined with the latest technological equipment, allows LABORA an unusual level of production flexibility. The factory is extremely adept at satisfying quick order turnaround times and can switch production lines and styles faster than most competitors. Factory capacity exceeds 240 000 pairs of shoes per month.
